**This is an exclusive invite-only event to all those who have registered to the AI Tech North 2019.**

So please register your team if you haven't already. <https://www.aitechnorth.uk/events/ai-tech-north-conference-2019>

(Max 3 people per organisation due to limited seats)

The hack will be led by Robin Lester from Microsoft,  
Terry McCann from Advancing Analytics  
Sherin Mathew from IBM

**Open source AI programming – Robin and Terry**

**Azure AI framework – Robin, Terry, Sherin**

**Applied AI architecture with Devops to production - Terry**

**Custom Vision AI and BotFramework – Sherin**

**Bring your data, your problem and your team. And take away an AI application.**

**Goal:** How to build AI application on your data, and how to deploy your AI/ML application to production

**Benefits:** Great learning experience in a day, with lots of fun, Expert-led advise, feel part of the AI community.
